the parties and being advised of the status of the case, and good cause appearing, IT IS HEREBY ORDERED:

- 1. **Motions to Amend.** Any motion to join other parties, to amend the pleadings, or to file additional pleadings shall be filed on or before December 10, 2012.
- 2. Disclosure of Asserted Claims and Preliminary

 Infringement Contentions. On or before July 2, 2012, Plaintiff

 shall serve on all parties a "Disclosure of Asserted Claims and

 Preliminary Infringement Contentions." Separately for each

 opposing party, the "Disclosure of Asserted Claims and Preliminary

 Infringement Contentions" must contain the following information:
- a. Each claim of each patent in the suit that is allegedly infringed by each opposing party;
- b. Separately for each asserted claim, each accused apparatus, product, device, process, method, act, or other instrumentality ("Accused Instrumentality") of each opposing party of which the party is aware. This identification must be as specific as possible. Each product, device and apparatus must be identified by name or model number, if known. Each method or process must be identified by name, if known, or by any product, device, or apparatus which, when used, allegedly results in the practice of the claimed method or process;
- c. A chart identifying specifically where each element of each asserted claim is found within each Accused Instrumentality, including for each element that the party contends is governed by 35 U.S.C. § 112(6), the identity of the structure(s), act(s), or material(s) in the Accused Instrumentality that performs the claimed function;

- d. Whether each element of each asserted claim is claimed to be literally present or present under the doctrine of equivalents in the Accused Instrumentality;
- e. For any patent that claims priority to an earlier application, the priority date to which each asserted claim allegedly is entitled; and
- f. If a party claiming patent infringement asserts that its own apparatus, product, device, process, method, act, or other instrumentality practices the claimed invention, the party must identify, separately for each asserted claim, each apparatus, product, device, process, method, act, or other instrumentality that incorporates or reflects that particular claim.
- 3. Document Production Accompanying Disclosure. With the "Disclosure of Asserted Claims and Preliminary Infringement Contentions," the party claiming patent infringement must produce to each opposing party, or make available for inspection and copying, the following documents in the possession, custody and/or control of that party:
- a. Documents (e.g., contracts, purchase orders, invoices, advertisements, marketing materials, offer letters, beta site testing agreements, and third party or joint development agreements) sufficient to evidence each discussion with, disclosure to, or other manner of providing to a third party, or sale of or offer to sell, the claimed invention prior to the date of application for the patent in suit. A party's production of a document as required herein does not constitute an admission that the document evidences or is prior art under 35 U.S.C. §102;

c. A copy of the file history for each patent in suit.

The producing party must separately identify by production number which documents correspond to each category.

The party claiming patent infringement is required to use its best efforts to obtain the documents to make a timely disclosure if the documents identified above are not in the possession, custody and/or control of that party.

- 4. **Preliminary Invalidity Contentions.** On or before September 10, 2012, Defendant(s) shall serve on all parties "Preliminary Invalidity Contentions," which must contain the following information:
- a. The identity of each item of prior art that allegedly anticipates each asserted claim or renders it obvious. Each prior art patent must be identified by its number, country of origin, and date of issue. Each prior art publication must be identified by its title, date of publication, and where feasible, author and publisher. Prior art under 35 U.S.C. § 102(b) must be identified by specifying the item offered for sale or publicly used or known, the date the offer or use took place or the information became known, and the identity of the person or entity which made the use or which made and received the offer, or the person or entity which made the information known or to whom it was made known. Prior art under 35 U.S.C. § 102(f) must be identified by

providing the name of the person(s) from whom and the circumstances under which the invention or any part of it was derived. Prior art under 35 U.S.C. § 102(g) must be identified by providing the identities of the person(s) or entities involved in and the circumstances surrounding making the invention before the patent applicant(s);

- b. Whether each item of prior art anticipates each asserted claim or renders it obvious. If a combination of items of prior art makes a claim obvious, each combination and the motivation to combine the items, must be identified;
- c. A chart identifying where specifically in each alleged item of prior art each element of each asserted claim is found, including for each element that the party contends is governed by 35 U.S.C. § 112(6), the identity of the structure(s), act(s), or material(s) in each item of prior art that performs the claimed function; and
- d. Any grounds of invalidity based on indefiniteness under 35 U.S.C. § 112(1) of any of the asserted claims.
- 5. Document Production Accompanying Preliminary Invalidity Contentions. With the "Preliminary Invalidity Contentions," the party opposing a claim of patent infringement must produce or make available for inspection and copying:
- a. Source code, specifications, schematics, flow charts, artwork, formulas, or other documentation sufficient to show the operation of any aspects or elements of any Accused Instrumentality identified by the patent claimant in the "Disclosure of Asserted Claims and Preliminary Infringement Contentions;"

- b. A copy of each item of prior art identified in the Preliminary Invalidity Contentions, which does not appear in the file history of the patent(s) at issue. To the extent any item is not in English, an English translation of the portion(s) relied upon must be produced.
- 6. Exchange of Proposed Claim Constructions and Extrinsic Evidence.
- a. On or before October 1, 2012, the parties shall simultaneously exchange a preliminary proposed construction of each claim term, phrase, or clause which the parties have identified for claim construction purposes. Each "Preliminary Claim Construction" will also, for each element which any party contends is governed by 35 U.S.C. § 112(6), identify the structure(s), act(s), or material(s) corresponding to that element.
- b. At the same time the parties exchange their respective "Preliminary Claim Constructions," they must also provide a preliminary identification of extrinsic evidence, including without limitation, dictionary definitions, citations to learned treatises and prior art, and testimony of percipient and expert witnesses they contend support their respective claim constructions. The parties must identify each item of extrinsic evidence by production number or produce a copy of any item not previously produced. With respect to any witness, percipient or expert, the parties must also provide a brief description of the substance of that witness' proposed testimony.
- c. On or before October 22, 2012, the parties shall simultaneously exchange "Responsive Claim Constructions" identifying whether the responding party agrees with the other

party's proposed construction, or identify an alternate construction in the responding party's preliminary construction, or set forth the responding party's alternate construction.

- d. At the same time the parties exchange their respective "Responsive Claim Constructions," they must also provide a preliminary identification of extrinsic evidence, including without limitation, dictionary definitions, citations to learned treatises and prior art, and testimony of percipient and expert witnesses they contend support any responsive claim constructions. The parties must identify each item of extrinsic evidence by production number or produce a copy of any item not previously produced. With respect to any witness, percipient or expert, the parties must also provide a brief description of the substance of that witness' proposed testimony.
- e. The parties must thereafter meet and confer for the purposes of narrowing the issues and finalizing preparation of a Joint Claim Construction Chart, Joint Claim Construction Worksheet and Joint Hearing Statement.
- 7. Joint Claim Construction Chart, Worksheet and Hearing Statement. On or before November 5, 2012, the parties shall complete and file a Joint Claim Construction Chart, Joint Claim Construction Worksheet and Joint Hearing Statement.
- a. The Joint Claim Construction Chart must have a column listing complete language of disputed claims with the disputed terms in bold type and separate columns for each party's proposed construction of each disputed term. Each party's proposed construction of each disputed claim term, phrase, or clause, must identify all references from the specification or prosecution

history that support that construction and an identification of any extrinsic evidence known to the party on which it intends to rely either to support its proposed construction of the claim or to oppose any other party's proposed construction of the claim, including, but not limited to, as permitted by law, dictionary definitions, citations to learned treatises and prior art, and testimony of percipient and expert witnesses.

- b. The parties Joint Claim Construction Worksheet must be in the format set forth in Appendix A and include any proposed constructions to which the parties agree, as well as those in dispute. The parties must jointly submit the Joint Claim Construction Worksheet on computer disk in both Word and Wordperfect format or in any other format the Court may direct.
 - c. The Joint Hearing Statement must include:
- 1. The anticipated length of time necessary for the Claim Construction Hearing; and
- 2. Whether any party proposes to call one or more witnesses, including experts, at the Claim Construction Hearing, the identity of each witness, and for each expert, a summary of each opinion to be offered in sufficient detail to permit a meaningful deposition of that expert.
- d. At the Court's discretion, within 5 calendar days of the submission of the Joint Claim Construction Chart, Joint Claim Construction Worksheet and Joint Hearing Statement, the Court will schedule and hold a status conference with the parties, in person or by telephone, to discuss the schedule, witnesses and any other matters regarding the Claim Construction Hearing.

8. Completion of Claim Construction Discovery. The parties shall complete all discovery, including any depositions of any witnesses, including experts, the parties intend to use in the Claim Construction Hearing by December 31, 2012. - b. On or before <u>January 28, 2013</u>, the parties shall simultaneously file and serve briefs responsive to the opposing party's opening brief and any evidence directly rebutting the supporting evidence contained in the opposing party's opening brief.

- 11. **Final Contentions.** Each party's "Preliminary Infringement Contentions" and "Preliminary Invalidity Contentions" will be deemed to be that party's final contentions, except as set forth below.
- a. If a party claiming patent infringement believes in good faith that the Court's Claim Construction Ruling so requires,

The list shall include the name, address, and phone number of the expert and a brief statement identifying the subject areas as to which the expert is expected to testify. The list shall also include the normal rates the expert charges for deposition and trial testimony. On or before May 13, 2013, any party may supplement its designation in response to any other party's designation so long as that party has not previously retained an expert to testify on that subject.

14. Each expert witness designated by a party shall prepare a written report to be provided to all other parties no later than June 10, 2013, containing the information required by Fed. R. Civ. P. 26(a)(2)(A) and (B). A written report is not required from a witness giving testimony as a percipient expert.

Except as provided in paragraph 15, below, any party that fails to make these disclosures shall not, absent substantial justification, be permitted to use evidence or testimony not disclosed at any hearing or at the time of trial. In addition, the Court may impose sanctions as permitted by Fed. R. Civ. P. 37(c).

- 15. Any party, through any expert designated, shall in accordance with Fed. R. Civ. P. 26(a)(2)(C) and Fed. R. Civ. Be further advised that the period of time between the date you request a motion date and the hearing date may be up to six weeks. Please plan accordingly. For example, you may need to contact the judge's law clerk at least six weeks in advance of the motion cut-off to calendar the motion. The statements need not be filed with the Clerk of the Court or served on opposing counsel. The statements will not become part of the court file and will be returned at the end of the conference upon request. Written statements may be lodged with Judge Brooks either by mail or in person.
